MDD
A Davies Company

Edward Secchi

Director

Edward joined MDD's London office in 2010. He is now a Director and works out of the firm's Dubai office.

Edward has gained extensive experience in matters related to business interruption, lost profits, loss of earnings, extra expenses/increased costs, product liability & recall, physical damages, stock & contents and fraud.

Edward also has considerable catastrophe services experience having worked on losses stemming from the 2010 Chilean and 2012 Italian national catastrophes that involved many complex issues including production versus sales losses, mitigation / make up and other measurement considerations.

His industry experience includes work in the automotive industry, aviation, aquafarming, construction, manufacturing, retail, oil & gas, power generation, hospitality & tourism, food services, pharmaceutical, pulp & paper and publishing.

Edward has been involved in cases that have varied widely in complexity and value, ranging from several hundred thousand dollars to losses in excess of $200 million.

Edward has prepared and presented at various seminars and training sessions on a variety of topics including business interruption measurement issues, stock loss issues, issues resulting from a delay in start-up and others in the UK, France, Italy and Spain.

Edward is a native Italian, is fluent in French and is proficient in Spanish and Portuguese.

He graduated from Edinburgh Napier University with a BA (Hons) degree in Business Studies with Finance.
