

# International Arbitration Disputes

International arbitration disputes require a particular type of financial expert. At MDD, we have a global footprint and local presence, as well as extensive experience in damage quantification and investigative accounting.

MDD offers support in arbitration matters:

We can assist in arbitration matters worldwide across various industries. Our experts understand each case's key financial issues and facts for multiple jurisdictions, and have successfully provided expert reports and testimony before arbitral panels.

Below is a selection of our case experience:

## Case Studies

- Contractual dispute on a large port construction deal between a large Brazilian mining company and the Swiss / Abu Dhabi JV contractors in Brazil before the Center for Arbitration and Mediation of the Chamber of Commerce Brazil-Canada (CAM-CCBC).
- LCIA arbitration involving a contractual dispute over the construction of an off-shore drilling rig.
- Alleged breach of a supply contract in Canada between an international cement manufacturer and a steel producer.
- Arbitration in Malaysia (UNCITRAL rules) related to losses suffered at a port following a large explosion.
- SIAC arbitration relating to a dispute between a US-based solar panel manufacturer and a Korean-based solar panel manufacturer.
- LCIA arbitration related to the expropriation of various power plants located in Argentina belonging to a US company.
- Arbitration between an international oil company and its insurer over quantification of the value

of various oil and gas rights located in the Middle East.

- SIAC arbitration relating to a Joint-Venture dispute between a Korean construction company (the Claimant) with a patented scaffolding technology and a Chinese construction company (the Respondent).
- International arbitration involving the quantification of clean-up costs and other damages following a large oil spill off the coast of Europe. Engaged on behalf of the reinsurers to quantify damages based on different euro/USD exchange rates.
- Contractual dispute between a large Brazilian steel and cement manufacturer and the Chinese suppliers of production equipment.
- Arbitration of a dispute involving a PPP between a provincial government and an international joint venture in relation to the cost of maintaining a highway over a ten-year period. Contract value exceeded \$1B. Engagement included testimony before a three-member panel.

We have accountants globally ready to assist, many of whom are Certified Public Accountants (US), Chartered Professional Accountants (Canada), Chartered Business Valuators and Certified Fraud Examiners.

With more than 40 offices on 5 continents and extensive language capabilities, our exceptional dedication and uniquely qualified professionals are the hallmarks of our firm.
